Chestnut Brae is an organic sweet chestnut farm located 15 minutes south of Nannup.

If a wedding party is looking for an idyllic rural setting in rolling hills and an orchard, Chestnut Brae is the venue.

# ABOUT THE VENUE

## CHESTNUT BRAE

---

Chestnut Brae is located in the Blackwood Valley, 15km south of Nannup in the South-West of Australia. The farm is 100 years old. It was originally a dairy farm. Forty years ago, 1,000 Chestnut trees were planted. Today it is a 70-acre accredited organic farm owned by Linda and John Stanley.

### Why a Wedding Venue

John and Linda have owned the farm for ten years. Many people have called it the prettiest farm in the south-west. Numerous visitors to the farm have, over the years, asked if we would consider the farm as a wedding venue.

One of the attributes of the farm is that whatever time of year it is, the farm always looks attractive. The many deciduous seasonal trees bring change and different experiences to the farm.

The farm is nestled in a picturesque valley, that is cooler in summer and protected in winter in comparison to other parts of the region.

### AT A GLANCE

- Three-hour drive from Perth, but you could be in the middle of France.
- 22 hectares of idyllic farm with a 1,000 tree sweet chestnut orchard and show garden.
- 02 • 15 minute drive from Nannup where there are a range of restaurants and coffee venues.
- A quiet venue away from the crowds.

# THINGS YOU WILL LOVE ABOUT A CHESTNUT BRAE WEDDING

**Chestnut Brae is unique, a truly natural organic setting providing a range of environments to suit your big day.**

## **Orchard Wedding**

Imagine getting married in a 1,000-tree sweet chestnut farm. In autumn it is full of autumn colour, in winter the bare trees creates a magical experience, in spring the leaves are bursting into brilliant green leaf and in summer it is a shaded forest retreat.

## **No Hidden Costs**

We are up front with what we can provide and at what cost. No hidden costs here.

## **Wet weather ceremony option**

Yes, it could rain but no worries, we have a 100-year-old sheep shearing shed that we use for wet weather options.

## TRAVEL

We may be remote, but Chestnut Brae has coach parking bays for those who want to book everyone to come together. We also have parking for approximately 25 cars with overflow parking options if necessary.

Being a farm, nestled in a valley, we have a lot of hilly gravel paths, and access to some areas can be very limited for those who are less mobile.

# VENUE FEATURES

## **CURIOUS WHAT OUR LITTLE FARM IS LIKE?**

### ESCAPE TO NATURE

We have two Sweet Chestnut Orchards that are like European Forests on the sides of two hills. These orchards vary dramatically with the seasons from being a haunted forest to a fairy dell. We also have open water bodies and an old English style rose garden. These features provide a range of natural environments and unique photo opportunities.

Due to our farm's organic accreditation, we are unfortunately, unable to allow dogs or pets on the farm.

### RUSTIC SHEARING SHED

The weather isn't always predictable. When the weather is not in our favour we have a 100-year-old, rustic wooden shearing shed which will comfortably fit an intimate sized group for an unique wedding experience.

### ADDITIONAL INFORMATION

Guest accommodation is available in the Nannup Shire. This varies from intown options with a range of farm stay and air B&B's in the area.
